From the Class Teachers' Desk

“The beautiful thing about learning is that no one can take it away from you.”

- B.B. King

Dear Parents,

Warm greetings from DPS Electronic City!

September arrives like a beautiful crossroads of warmth, celebration, and new beginnings. As the spirit of the harvest season brings renewed energy and enthusiasm, our ever-blooming campus sets the stage for a month brimming with vibrant events and memorable experiences. The highlight of this season is undoubtedly **Teachers' Day**, a heartfelt celebration of the enduring bond between students and teachers, built on trust, gratitude, and respect.

At **Delhi Public School, E-City**, the month of August was truly eventful and inspiring. We proudly celebrated **Independence Day** with great patriotism and joy, and the spirit of the occasion flowed into September through various classroom and bulletin board activities. The School **Annual Day** stood out as a grand showcase of talent, with captivating dances, theme-based skits, musical performances, and artistic expressions that left the audience thoroughly impressed.

As we step into September, the calendar continues to be filled with promising activities. We remain committed to promoting learning beyond textbooks through exciting pursuits like roller skating and karate, which bring together movement, focus, and fun. At DPS E-City, we believe education must nurture the body, mind, and spirit alike.

Midterm exams are fast approaching, and this is a time when the entire school community—teachers, students, and parents—comes together in harmony. We encourage our learners to revisit their notes, seek support where needed, and approach revision with calm confidence. With guidance and teamwork, we are confident our students will rise to the occasion.

As we near the close of the first term, we are immensely proud of the progress our students are making, both academically and personally.

Let us continue working together to make this journey enriching, empowering, and joyful.

Let us welcome this month as a time of exploration, growth, and joyful learning. Together, let's make September truly magical, filled with meaningful experiences and memories that last a lifetime.

Warm regards,

Class Teacher

Parenting Tip

“The best inheritance a parent can give their children is a few minutes of their time each day.” – O.A. Battista

Parenting in today’s world is both fulfilling and challenging. As we juggle work, home responsibilities, and the needs of our children, it becomes essential to instil values such as responsibility, balance, and care for the environment in their daily routines.

Even a few mindful minutes spent with your child each day—listening, sharing, playing, or simply being present—can strengthen your bond and provide the emotional security they need to thrive. These moments create a safe space where children feel seen, heard, and valued, helping them grow into grounded individuals. Children learn more from what we do than what we say, and when we take time to model empathy, kindness, and perseverance, they naturally adopt these qualities. The trust and connection built through regular interaction give them the confidence to explore, question, and learn, knowing they always have your support to fall back on.

Here are some simple yet meaningful ways to strengthen your role as a parent while nurturing your child’s holistic development:

A strong home–school connection helps children thrive both academically and emotionally. Here are a few quick tips to support your child this school year:

Establish Routines – Consistent sleep, meal, and homework schedules help children feel secure and stay focused.

Stay Involved – Keep track of schoolwork, attend events, and maintain regular communication with teachers. Your involvement reinforces the importance of education.

Encourage Independence – Allow children to take responsibility for packing their bags, managing assignments, and solving minor problems.

Praise Effort, Not Just Results – Celebrate progress and persistence to help build resilience and foster a love of learning.

Make Time to Talk – Regular conversations about their day help children feel heard, valued, and supported.

Teach Gratitude and Empathy – Encourage children to express thankfulness and understand others’ feelings. These values build emotional intelligence and social awareness.

Small, consistent actions at home can make a big difference at school!

Parenting is a journey of love, patience, and lifelong learning. By guiding with care and leading by example, we nurture confident and compassionate individuals. It’s the small, everyday moments that shape strong values and build lasting bonds.

Together, let us raise children who flourish and contribute to a better world.

Health Tip

Why Drinking Water Matters: A Must for Every Child

Water is not just a drink—it's the fuel that keeps our bodies running. Since around 60% of the human body is made up of water, staying hydrated is crucial for maintaining overall health and vitality. It plays a key role in regulating body temperature, energising muscles, supporting digestion, and keeping the skin fresh and healthy.

Here are a few key benefits of drinking enough water every day:

Maintains Hydration Levels

Water ensures that our cells, tissues, and organs function smoothly by balancing essential body fluids.

Boosts Energy and Mental Focus

Staying hydrated improves alertness, reduces fatigue, and enhances mood. Even slight dehydration can lead to headaches or a lack of focus.

Aids Digestion

Water assists in breaking down food and helps the body absorb nutrients efficiently while also preventing constipation.

Controls Body Temperature

During physical activity, the body sweats to cool down. Drinking water helps restore lost fluids and keeps body temperature in check.

Cleanses the System

Water supports kidney function by flushing out toxins and waste from the body through urine.

Improves Skin Health

Hydrated skin looks fresher and feels softer, while dehydration can lead to dryness and irritation.

Prevents Dehydration

Especially in active children, hot weather or illness can lead to rapid fluid loss, making it vital to replenish water regularly.

Encourages Healthy Habits

Choosing water over sugary beverages promotes a healthier weight and helps prevent lifestyle-related issues in children.

Tip: Make water your first choice over sugary drinks to stay healthy and strong!

Testimonials

A very good morning ma'am,

The Grade III to V Annual day event held on August 22, 2025 (slot-2) was indeed a delight to the eyes. The efforts put by the teachers, staff, management and students was clearly visible.

Everything was in order, and the arrangements were amazing. In fact after the unexpected downpour, the way management and staff helped the students exit safely to the classrooms, it just won our hearts! Many thanks for the kind gesture.

The kids looked graceful and each and every performance was mesmerizing. Hope we will get the full videos of the performances soon so that we can enjoy the closer look, which was the only part we missed as there were many kids in one performance. Even though in larger numbers, the moves and steps were so synchronized that made it appear just fascinating!

Once again, we want to thank you all for your genuine efforts and hard work in teaching the children, helping them to showcase their talents, supporting them, and providing a wonderfully planned event!

We always feel blessed to be a part of the DPS-Ecity family.

Thanks and regards,

Neeraj and Kanika

Parents of Arnik Mathuria (V-H) and Anushka Mathuria (XI-B)

Dear Principal and Respected Teachers,

I would like to express my sincere gratitude to the school management, teachers, and staff for organizing such a wonderful Annual Day function yesterday. My son, Anirudh Khanna, Class IV-J, had the opportunity to participate in the event, and it was truly a proud moment for us as parents.

I deeply appreciate the efforts of all the teachers and staff who have worked so patiently with the children, guided them with care, and helped them become more confident and capable. Giving the children a chance to perform on stage not only encourages their talents but also builds their confidence.

The program was conducted beautifully and reflected the dedication of the entire school team. It was a joy to watch the performances, and we are truly thankful for this memorable experience.

Once again, I extend my heartfelt thanks to the entire DPS Electricity family for your hard work, support, and encouragement to the students.

Warm regards,

Vikas Khanna

Testimonials

Dear Ma'am ,

Greetings for the day!

Firstly I apologize for being late in sending this email to you.

Maybe by now your mail box must have been overloaded by appreciation emails from parents for the Annual day 2025 which concluded a couple of days back.

I write this email to salute all you teachers , Principal mam and the management team of DPS Ecity for putting on such a spectacular show on 22nd & 23rd of August 2025. The annual day program was wonderfully executed and most of us were overwhelmed to watch our kids perform so beautifully on stage. Last few weeks had been very hectic for the kids as well as all you teachers , practising endlessly for the big day. So all your joint efforts were very much visible on stage!

But what moved me more was the effort taken and care shown towards all the students and parents while the rain started pouring badly. Trustee sir - Masood Khan sir along with so many school staff and not to forget to mentionsenior council member kids, getting drenched in the rain and helping to hold the tarpaulin shelter and helping each one of us to reach the school building without getting wet in the rain. And I was touched to see Principal mam standing there until each one of us were escorted out of the stage area.

The idea of arranging school bus pick & drop for parents was also very innovative and was of great help too after the bad downpour on 22nd Aug.

Thank you dear teachers and Principal mam for all this concern and consideration.

We hope that DPS Ecity plans for such annual shows every year .

With best wishes and regards,

Parents of Arsh Kabir, V-C

Dear Principal,

Greetings of the Day

I would like to congratulate you and whole team of DPS Electronic City for successful performance in annual function..

I really admire the efforts put in by entire team, the theme chosen for annual function is so apt for today's time , by highlighting this sensitive issue faced by today's children your team has proved that you understand the challenges face by today's children.

Once again kudos to entire team..

Regards

Yoshika Keswani

Parent of Kaina Keswani, VII- F

Testimonials

Dear Madam

This is the Parent of Sudiksha Venkatakrishnan - IV-H.

Just wanted to express gratitude for a beautiful Annual Day Event. The efforts that went into making the event a success was evident from all the performances.

But what stole my heart is the way the dispersal of the students and parents was facilitated by the staff and the management with the Rain God being very generous in showering blessings after the event :-)

And when we could not find a Cab to get back home, the transport department was very helpful to guide us toward the right bus and we all got a ride back home too.

Words cannot do justice to the feeling of gratitude and appreciation that I am feeling now.

Thank you very much!

Regards

Yamuna Venkatakrishnan

Hi mam

I am Sahana vikrams mother from grade VII -L

I just want to render a heartfelt thanks for the annual day program which Sahana took part in (choir) and the show was just nothing less than mesmerising

This of course would not have been possible without the tremendous efforts put in by teachers and the coordinators

Also a special thanks for Bhawna mam (the music instructor) who orchestrated the choir so well and it was like musical show in itself and a great way to start with
