From the Class Teachers' Desk

A good education can spark a positive “domino effect”, positively influencing various aspects of a person’s life and their outlook.

Dear Parents,

Warm greetings from DPS Electronic City!

As we step into August, the rhythm of the academic year is well-established, and our campus is buzzing with the spirit of learning and discovery. The focus and dedication shown by our students during the Pre-Mid Term assessments in July were truly commendable, and we thank you for fostering a supportive environment at home.

August arrives with a special patriotic fervour and promises to be a month of grand celebrations and lasting memories. It is a time to showcase the immense talent within our student community and celebrate our nation's heritage. Our calendar is packed with exciting events, including the much-anticipated **Grand Annual Day celebration**. This spectacular event will be a platform for our students to display their creative talents through an array of brilliant performances.

Furthermore, it's time to capture the smiles of this academic year with our annual **class photographs**, creating cherished keepsakes for years to come. These events are a vital part of our commitment to holistic education, nurturing not just academic skills but also creativity, confidence, and a sense of community.

We are grateful for your unwavering partnership and look forward to a month filled with celebration, pride, and picture-perfect moments.

Warm regards,

Class Teacher

MID TERM PRACTICALS FOR
GRADES IX - XII

Parenting Tip

“We do not inherit the Earth from our ancestors; we borrow it from our children.” – Native American Proverb

Parenting in today’s world is a rewarding yet demanding responsibility. As we juggle work commitments, household chores, and our children’s needs, it’s important to foster values like responsibility, balance, and environmental care in their daily lives. Here are some simple yet meaningful ways to strengthen your role as a parent while nurturing your child’s holistic growth.

- 1. Lead by Example:** Your everyday actions speak louder than words. Show your children how to save water, reuse items, and manage time effectively.
- 2. Create a Routine:** Establish a consistent schedule for schoolwork, play, and meals. A predictable routine builds security and reduces stress.
- 3. Involve Children in Tasks:** Give age-appropriate responsibilities like setting the table or watering plants. This builds independence and teamwork.
- 4. Teach Mindful Habits:** Encourage conscious choices — from healthy snacking to switching off lights. Small habits lead to lifelong values.
- 5. Balance Work and Home:** Set boundaries between work and family time. A few minutes of undivided attention can go a long way.
- 6. Go Green Together:** Plant a sapling, segregate waste, or make DIY crafts from old items. Let your child enjoy the joy of giving back to nature.
- 7. Celebrate Small Wins:** Praise efforts, not just results. Encouragement boosts your child’s self-worth and motivates better behavior.

Parenting Insight of the Month: “Raising responsible children doesn’t begin in big moments—it grows in small, consistent actions every day.” Let’s nurture mindful, independent, and compassionate individuals — one thoughtful step at a time.

Health Tip

“A healthy outside starts from the inside.” – Robert Urich

August brings refreshing rains, cooler weather, and, unfortunately, a few health concerns as well. The monsoon season may be beautiful, but it can invite illnesses if we're not careful. Let's ensure that this month is filled with energy, laughter, and good health by following some smart tips!

Monsoon Wellness Tips for Students

Eat Right, Stay Bright

Choose hot, freshly cooked meals. Avoid roadside or uncovered foods.

Rinse fruits and veggies well using warm or salted water.

Include immune-boosting foods like citrus fruits, soups, and probiotics such as curd and buttermilk.

Hydrate Smartly

Drink only boiled or filtered water to prevent waterborne diseases.

Carry a clean water bottle and sip throughout the day, especially after PE or outdoor play.

Hygiene is Health

Wash hands with soap after coming home, after play, and before meals.

If you get drenched, change into dry clothes and bathe with disinfectant soap.

Dress the Weather

Wear clean, dry cotton clothes. Avoid damp shoes and socks.

Use rain gear like raincoats and waterproof bags to stay dry and comfy.

Rest to Recharge

Sleep 9–10 hours daily to let your body rest and grow.

Take short breaks between study sessions to stretch and relax.

Healthy Mind, Happy Heart

Practice gratitude, smile often, and do one kind act every day — happiness is contagious!

Tip of the Month:

“Smile more, worry less!” A cheerful attitude is the first step to great health.

Let's welcome this monsoon with warmth, wisdom, and wellness!

Testimonials

To
The Principal
DPS E-City
Bangalore.

Dear Ma'am,

I would like to express my gratitude to the staff and management of DPS Electronic City for their care and support, which has helped my daughter Avia Rachel Verghese (9A) grow and develop her persona from childhood into her teenage years.

My daughter has been a student at DPS Electronic City since UKG. The school has not only provided a strong academic foundation but also encouraged participation in co-curricular activities like sports, music, and art. It has helped my child grow into a confident and well-rounded individual. I appreciate the school's nurturing approach, which has brought out the best in her.

Happy to be associated with the DPS E-City community!

Sincerely

Robin Verghese,
Parent of Avia.

Are you a Blogger?

We are looking for parents who would like to write for the monthly newsletter, 1 article of about 200 words per month on the same topic.

- If you're an avid reader who likes to write book reviews or recommend age appropriate books,
- A creative writer looking for audience,
- A science enthusiast who can speak about latest technologies,
- A Mathematician who can see patterns in everyday living,
- A travel explorer who can take us places,
- An astronomer who can bring the stars closer,
- A philosopher who can enlighten us with new perspectives,
- A sport enthusiast who writes about the right ways of training,
- A dance, music, cultural advocate who can educate us on the different forms of art
- A doctor who can write about the right kind and ways to take medicine or if you have an intriguing topic of interest, Kindly write to us at magazine@dpsecity.com with details about the topic of interest. Also include a sample article as reference. Mention your wards Name, Grade, section and admission number in the mail

The invite is only for parents of students studying in DPS E-City. For any query please write to the Head Mistress at: soumya.shaji@dpsecity.com . For any query please write to the coordinators at:
