From the Class Teachers' Desk

"Every new beginning holds the promise of endless possibilities. Embrace the first day of school with curiosity, enthusiasm, and a heart ready to learn."

Dear Parents,

Greetings from DPS Electronic City!

As May unfolds with its golden sunshine and warm breeze, it also marks the excitement of a fresh start. The joy of returning to school after a refreshing holiday is truly special—the thrill of wearing crisp uniforms, flipping through neatly covered books, and reuniting with friends fills the air with energy and enthusiasm. With a renewed spirit and eager minds, we embark on another journey of learning and growth, ready to make this term a remarkable one!

May and June are bustling months, starting with an orientation for students who have chosen this esteemed institution to begin their holistic educational journey.

June is a month of global significance, marked by celebrations that inspire awareness and well-being. On June 5th, we observe World Environment Day, a reminder of our responsibility to protect and cherish Mother Nature. Later in the month, International Yoga Day promotes the harmony of mind and body, encouraging our children to embrace a lifestyle of physical fitness and inner peace. These special occasions serve as valuable lessons, instilling mindfulness, responsibility, and holistic well-being in our young learners.

A host of exciting school activities are lined up for this month, including Parent-Teacher Meetings (PTMs) that foster collaboration between parents and educators. A significant highlight is the Investiture Ceremony, where deserving students are entrusted with leadership roles and adorned with badges of honour, such as Head Girl, Head Boy, and Sports Captain. As the newly appointed student council members take their solemn oath, they pledge to uphold the values of the school and serve with dedication and integrity.

Wishing you a wonderful and fulfilling academic year 2025-26! May this year be filled with exciting learning experiences, personal growth, and countless achievements.

PORTIONS for MAY-JUNE 2025

Subject	Portion
ENGLISH	• Flamingo- • Deep Water • Keeping Quiet (Poem) • Vistas- • The Tiger King (Prose) • Writing Skill- • Invitations and replies
MATHEMATICS	• Continuity and Differentiability (contd) • Relations and Functions • Matrices and Determinants.

Parenting Tip

Self-reliance is a crucial life skill that empowers children to become independent, confident, and capable individuals. By teaching self-reliance, parents can help their children develop problem-solving abilities, resilience, and a sense of responsibility. Here are some essential tips for parents to foster self-reliance in their children:

- **Encourage Decision-Making:** Give your child opportunities to make decisions, both big and small. Whether it's choosing their clothes for the day or planning a family activity, decision-making helps children develop critical thinking and confidence in their choices.
- **Assign Age-Appropriate Responsibilities:** Assigning chores and responsibilities that are appropriate for your child's age helps them understand the importance of contributing to the household.
- **Teach Problem-Solving Skills:** Encourage your child to solve problems independently. Guide them through the process of identifying the problem, brainstorming possible solutions, and evaluating the outcomes.
- **Promote Self-Care and Hygiene:** Teach your child basic self-care and hygiene practices. These skills are essential for their physical well-being and boost their sense of autonomy.
- **Foster a Growth Mindset:** Encourage your child to view challenges as opportunities for growth. Emphasize the importance of effort, persistence and learning from mistakes.
- **Offer Support and Guidance:** Be available to offer advice, answer questions, and provide encouragement. Balancing independence with support helps children feel secure and valued.
- **Celebrate Achievements:** Acknowledge and celebrate your child's achievements, no matter how small.

Fostering self-reliance in children is a vital aspect of their development. Remember, the journey to self-reliance is a gradual process that requires patience, support, and encouragement.

Health Tip

Summer vacation is a joyful time for every kid and their parents. When it is time for the reopening of schools, children experience a wide range of emotions. Some just love going back to school as they will get to meet their friends. While others may not be that enthusiastic. Such behaviour is quite natural among young ones. As parents, we have to understand that our children have spent a significant time away from school and they need to be gently guided back to their regular school routine. Here's how you can make sure that your child is prepared for school reopening!

- **Have a proper morning routine:** Parents can do this by ensuring to wake up their children at their school times, and for older children, use an alarm clock to make them responsible for their wake cycle.
- **Reset their meal timings as per the school schedule:** Eating at a time similar to school hours will allow the child to train their stomach to adapt.
- **Prepare for the day a night before:** Setting up clothes is one of the steps to getting ready for school in the morning. It allows one to prepare the first few steps beforehand and smoothen the process.
- **Reassure safety:** Talk about school safety procedures with your child. Reassure your child that he/she will be taken care of.
- **Maintain a sleep schedule:** Waking up early for school is a task for many children. Maintaining a sleep schedule can help the children to overcome this.

By following simple tips, parents can guide the children to get back to school without feeling overwhelmed during their initial days.

Testimonials

Dear Principal Mam,

We would like to thank DPS Electronics city school for Arjun's grade 10 result achievement. It wouldn't have been possible without you, his class teacher, subject teachers and principal mam's continuous encouragement and motivation throughout the academic year. And big thank you for creating such a great environment.

The systematic and effective preparation with teaching methods, class tests & pre-board exams and meticulous reviews & feedbacks helped him a lot. His teachers' efforts truly helped him to perform well in his board exam. Also instilled confidence, discipline, eagerness for learning.

Our sincere gratitude to class teacher Ms. Renu Oberai and the subject teachers: Science teachers(Sathish sir, Asmi Mam, Elsa Mam), Maths teacher (Avina Mam), French teacher (Purvi Mam), AI (Sunita Mam), Social (Neha Mam) for the continuous support and guidance throughout the board examination preparation.

Sincerely

Raja & Vani,

Proud Parents of Arjun Raja, X-A.

Testimonials

Dear Ma'am,

As proud parents of a recent Class 12 graduate of Delhi Public School, Electronic City, we wanted to take a moment to express our heartfelt gratitude and share a brief testimonial about our daughter's journey at the school.

Our daughter enrolled in Delhi Public School, Electronic City in Grade 5, and over the years, we have been able to witness her transform into a confident, well-rounded, and high-achieving student—all due to the excellent atmosphere of the school.

The faculty of DPS possesses an intense sense of commitment and drive. Through solid academic foundations and individual mentorship at early ages, they have played an important role in her success. The in-depth syllabus, regular tests, and extra guidance during board preparation have kept her on track and progressively improving.

DPS not only nurtured her academic success but also encouraged her to engage in Model United Nations, debates, and leadership, thus enhancing her confidence and communication levels.

The very disciplined environment of DPS has played a major role in the upbringing of our child with moral values and ethics. The safe atmosphere has given us peace of mind as the school was taking the end to end responsibility of the ward in terms of academic and behavioral aspects.

With the support and infrastructure provided by the school, she scored a great percentage in her 12th board exams, and we couldn't be more proud. We are truly thankful to DPS Electronic City for being such a part of her life.

We would like to express our sincere gratitude to her Grade 12 class teacher, coordinator and all subject teachers for this unique achievement. We would also like to mention the resilience of Principal ma'am for maintaining a very organized, disciplined and safe school environment.

Regards

Cyriac Kurian & Sophy Mathew

Proud Parents of Sonali Cyriac, XII-D.

Are you a Blogger?

We are looking for parents who would like to write for the monthly newsletter, 1 article of about 200 words per month on the same topic.

- If you're an avid reader who likes to write book reviews or recommend age appropriate books,
- A creative writer looking for audience,
- A science enthusiast who can speak about latest technologies,
- A Mathematician who can see patterns in everyday living,
- A travel explorer who can take us places,
- An astronomer who can bring the stars closer,
- A philosopher who can enlighten us with new perspectives,
- A sport enthusiast who writes about the right ways of training,
- A dance, music, cultural advocate who can educate us on the different forms of art
- A doctor who can write about the right kind and ways to take medicine or if you have an intriguing topic of interest, Kindly write to us at magazine@dpsecity.com with details about the topic of interest. Also include a sample article as reference. Mention your wards Name, Grade, section and admission number in the mail

The invite is only for parents of students studying in DPS Ecity. For any query please write to the Head Mistress at: soumya.shaji@dpsecity.com . For any query please write to the coordinators at:
